

Stage 2 Offshore Crane Operator

UMTC has partnered with SEATAG Australasian Services to deliver Offshore specific Training.

The training will be delivered by UMTC and the certification will be managed by SEATAG Australasian Services, under Libero Assurance accreditation covering BSI & API standards. UMTC has invested in very sophisticated Offshore Crane simulation that meets the need of industry to conduct training & assessment.

We believe this is a first in the Philippines and we are very pleased to open this type of training to Filipino's who wish to explore employment in the Offshore Industry as well as Owners and Rig Managers who require training and assessment without having to send them overseas.
