

Steering Course

This course aims to develop the competency and proficiency of seafarers who will be assigned specifically as helmsmen. It covers theoretical and practical exercises in steering different types of ships under different conditions prescribed in the STCW Code of 2010, as amended.

Intended Learning Outcome/s

After the training, the participants must be able to steer a vessel and carry out bridge procedures as helmsman.

Qualifications:

All certified seafarers to form part of a navigational watch.
